

Upgrade MINI X6

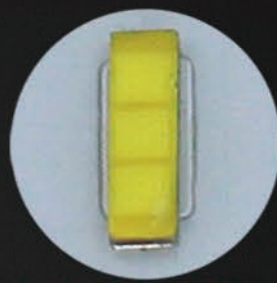

LED highlighting lights

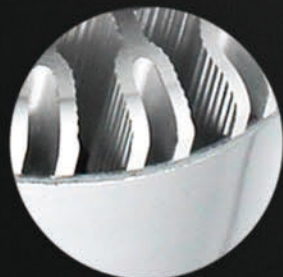

Product details

Pure copper base plate
Super heat dissipation performance
Anti-oxidation and corrosion resistance.

Auto import CSP chips
Working life: 50,000 hours.
Concentrated!
The lights are in five sides glowing
Low energy Super Bright

Aviation aluminum&fins are designed together.
Super heat conduction heat dissipation performance.
Anodic oxidation treatment and Corrosion resistant

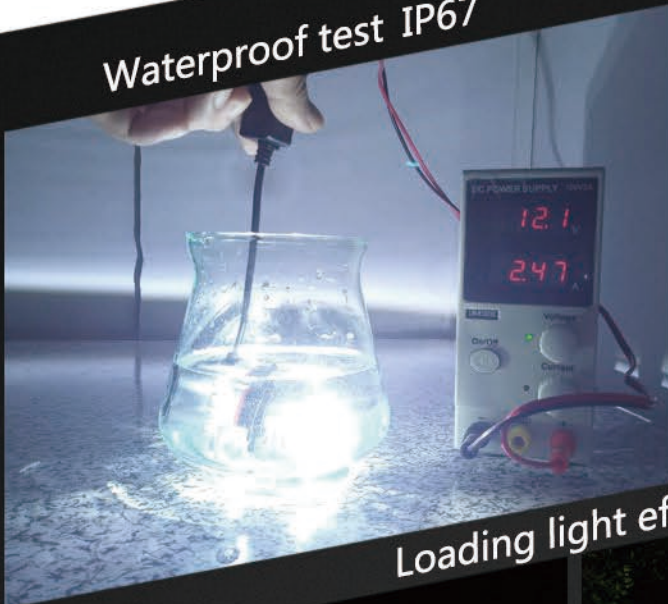

Smart cooling
Directional pressurized air cooling system.
8000 high speed mute fan.

New features! Drive + lamp&holder integration. Easier installation

The light source power : 60W
Working voltage : DC11-30V
Input current : $2.5 \pm 0.3A$
Luminous flux : 4000LM
Color temperature : 6000-6500K

Waterproof test IP67
